

Dylan Hall

I have worked in Wheeler Machinery's oil lab for 8 years. I worked as an Oil Lab Technician for 4 years which transitioned into my current role as an Oil Lab Supervisor. In this time I have completed Caterpillar's Services Interpretation training in 2012 and Caterpillar Oil Analysis by ICP, FTIR, and GC in 2014. I have been assisting and training customers with SOS Services and related items since 2012.
